

**Prequalified Ready Employees for Power**

Preparing Tomorrow's Energy Professionals

## Get PRePed for a Career in Energy Today!

The energy industry depends on excellence in selection and training. PReP Intl's comprehensive evaluation and understanding of an employer's needs can benefit you in your job search by reducing wasted time on job boards and in employment centers as we find the "right fit" for you.

### Company Overview

PReP Intl is the premier career and talent development exchange for the Energy Technology (ET) revolution. We maximize our clients' speed to finding the right expertise. After 10 years of successfully changing the way over 1,000 energy organizations trained their employees, we discovered there are limits to training and success must begin with employing the right talent.

PReP Intl is a talent-focused firm that promotes a culture of trust with our employees by developing professionals, teams and organizations to fulfill their potential. PReP Intl connects professionals, veterans, energy organizations, schools and associations to reduce the risks and costs of recruiting, hiring and maintaining compliance.

### What's Next?

Register with PReP Intl and begin the process of assessment towards becoming a part of the next generation in the exciting field of Energy Technology!

### Why We Are Different

- PReP Intl knows the energy industry and we understand operations. We have a global network built from a solid reputation as a leader in training and compliance.
- As a PReP Intl talent candidate, we will help you earn NERC certification and stay current with the latest changes in regulatory standards through state of the art training.
- Three work options available - Interim (short-term engagements), Contract-to-Hire or Direct Placement.
- We recognize veterans already demonstrate the ability to master core job requirements such as teamwork, critical decision making, reliably following procedures and real-time communications.
